

THE FACTS

General Mobility Program (GMP)

Partnership with the city of Houston, Harris County and 14 smaller cities to provide money for mobility projects.

GMP Funds

- Up to 25% of METRO's eligible sales tax revenue goes into GMP
- At least \$3.3 billion contributed since program's inception in 1988
- More than \$180 million contributed in FY2018

How the GMP Works

- Projects must meet certain criteria and be in the METRO service area
- Funds are released to the partner entities for each invoice
- 14 smaller cities get funds in monthly or yearly lump sums - not per invoice

Improvements

We're committed to improving transportation across our region through these important projects you may see and use every day - not realizing METRO's involvement in them.

- Streets and roads
- Drainage and landscaping improvements
- Traffic control signals
- Sidewalks
- Hike and bike trails
- Streetlights
- Bridges and grade separations

GMP Members

- City of Houston
- Harris County
- Bellaire
- Bunker Hill Village
- El Lago
- Hedwig Village
- Hilshire Village
- Humble
- Hunters Creek Village
- Katy
- Missouri City
- Piney Point Village
- Spring Valley Village
- Southside Place
- Taylor Lake Village
- West University Place
