

THE FACTS

My Stop Technology

It's exciting and all about you!

How it Works

- Links your smartphone to Bluetooth beacons on more than 9,000 bus stops and rail platforms
- See where you are on a map and the path to your destination
- Your phone vibrates as you get close to your boarding location

We've put the power to get where you're going, right in your hand!

- Simple to use for first-timers or seasoned travelers

METRO Innovation

- Gives you your own personal guide
- Launch was a first for American transit
- Bluetooth not used, at launch, on a bigger scale anywhere else in the country

My Stop Technology is built into the free METRO TRIP app, available for download.
